Mandatory Engineering Pipeline §1 & §11 WORKFLOW

INSPECT → ANALYZE → PROPOSE → APPROVAL → IMPLEMENT → VERIFY

STEP 01 — Inspect
Read-only audit of target UI, dependencies, and styles.

STEP 02 — Analyze
Examine contrast, WCAG AA, 8px grid, and functional risks.

STEP 03 — Propose
Present structured proposal with rollback strategy.

STEP 04 — Approval Gate
HARD STOP. Zero code edits without explicit user approval.

STEP 05 — Implement
Execute only approved files using strict tokens.

STEP 06 — Verify
Automated build, test suite, and visual cross-check.
